The WSS
(Work-ability Support Scale)

Version 3.6.2
Modified 15.12.22

Developed and updated by:

Prof Lynne Turner-Stokes
King's College London, UK
Email: lynne.turner-stokes@nhs.net

Prof Kathryn McPherson
Auckland University of Technology, NZ
Email: kath.mcpherson@aut.ac.nz

Dr Joanna Fadyl
Auckland University of Technology, NZ
Email: joanna.fadyl@aut.ac.nz
Background:

The WSS is a measure designed to:

a) assess the individual’s ability to work and support needs in the context of their normal work environment, following the onset of acquired disability, and
b) support decision-making with regard to vocational rehabilitation

It has 16 items across three domains of work functioning:
- Physical / Environment
- Thinking and communicating
- Social / Behavioural.

There are also an additional 7 items related to contextual factors outside the workplace that could affect work functioning.

Key scoring principles:

1. The WSS should be rated with respect to the individual’s ability to work in their normal work environment (or their proposed work environment if not currently employed).
   It is therefore sensitive to the circumstances of their employment.

2. It is designed to be used both for people actually in work, or as a planning tool for those considering return to work.
   The item level descriptors are phrased in terms of what the individual requires.
   If the individual is in work, they should be scored in terms of what actually happens.

3. The level descriptors refer to frequency of the need for intervention in terms of:
   “Half of the time” or “Most days” etc
   If the individual works part time:
   Consider this descriptor in proportion to their working time
   ie “Half their working time” or “Most of their working days”

4. Using the decision trees:
   A) Read the top two boxes which describe
      What the item refers to
      The requirements for a score of 7
   B) Then follow the decision tree, starting with the yellow box
   C) Finally check in the level descriptors at the bottom of the page.
      Look at the levels above and below to check that you have scored the right level.
      If in doubt score to the lower.
### Work-ability Support Scale (WSS) v 3.6 Overview

(Please note more detail given in decision trees)

#### PHYSICAL

Overall structure for scoring (items 1-16) – **to score individual items, refer to item decision trees**

<table>
<thead>
<tr>
<th>Independent</th>
<th></th>
</tr>
</thead>
</table>
| Level 7                          | Independence without modification  
No problem at any level with managing the requirements of the job |
| Level 6                          | Independence with modification  
Some consideration for time or effort *  
Or requires adaptation / strategies / equipment above the ordinary provided for the job in order to function independently.  
Able to self-prompt / correct or to structure their own environment.  
Minimal reduction in work productivity |

<table>
<thead>
<tr>
<th>Supported working</th>
<th></th>
</tr>
</thead>
</table>
| Level 5                          | Supervision / set-up  
Requires someone else to set-up equipment or prompt on strategies  
Or externally structured work environment.  
Monitoring – with only occasional prompting / correction |
| Level 4                          | Minimal support  
Able to manage >75% of the time in that aspect of the job  
Regular planned intervention or support only  
Work productivity only mildly affected |
| Level 3                          | Moderate support  
Able to manage more than half the time in that aspect of the job  
Infrequent** unplanned intervention on top of regular monitoring  
Work productivity moderately affected |
| Level 2                          | Maximal support  
Able to manage less than half the time in that aspect of the job  
Frequent unplanned intervention on top of regular monitoring  
Work productivity severely affected |
| Level 1                          | Constant support – or effectively unable  
Effectively unable or manages less than 25% of the time  
Unplanned intervention many times a day |
| Unable to score                  | Unable to score due to insufficient information.  
More information required. |

*NB Level 6: ‘safety’ not included as maintaining safety is included as an item on its own merit.

** Frequency of unplanned interventions not rigidly defined in terms of time – may vary for different items
As a rough rule however, the following framework may help
Level 3 : Occasional - Not every day; Level 2: Regular - Most days; Level 1 - Many times a day

AUT University and King’s College London.
FRAMEWORK FOR SCORING

Work-related function includes:
Description of functional abilities required within the person’s normal work environment
Or, if not in work, within the proposed work environment

Does (N) require intervention from another person to carry out the work-related function?

Yes

Does (N) take more than a reasonable amount of time or effort
Or Do they need job modification,
Or Do they need more than the normal equipment to manage that aspect of their work?

No

SCORE 7
COMPLETE INDEPENDENCE

Yes

SCORE 6
MODIFIED INDEPENDENCE

No Helper

Is (N) able to manage in that aspect of their job more than half the time without support from someone else?
Or If unplanned intervention is required, this is less than daily or almost every day

Yes

Is (N) able to manage most of that aspect of their work, but requires someone else to:
Set-up equipment for them
Or Structure their environment
Or Supervise them, providing very occasional prompting only

Yes

SCORE 5
SUPERVISION OR SET-UP

No

Score below

Does (N) need constant support, or unplanned intervention many times a day
Or is effectively unable to manage that aspect of their work

Yes

SCORE 1
TOTAL DEPENDENCE

No

SCORE 2
MAXIMUM SUPPORT

Is N able to manage >half of the time in that aspect of their job:
Requiring planned monitoring and support only, with no need for unplanned intervention?

Yes

SCORE 3
MODERATE SUPPORT

No

SCORE 4
MINIMUM SUPPORT

At level 7 the person:
Manages all that aspect of their work independently:
They perform independently without undue effort or modification of their job
Requiring no more equipment /strategies than would be considered usual.

Level 7:
No problem – can manage all of that aspect of their job independently
Level 6:
Manages all of that aspect, but takes more than the reasonable amount of time or effort, or requires special equipment. Able to self-prompt and correct.
There is minimal reduction in work productivity

Level 4:
Able to do most of that aspect of their work, but requires help from someone else to set-up equipment, or requires a structured environment, with supervision but only very occasional prompting / correction

Level 5:
Able to do most of that aspect of their work, but requires help from someone else to set-up equipment, or requires a structured environment, with supervision but only very occasional prompting / correction

Work productivity mildly affected ( unable to do some parts of their job)

Level 3:
Able to manage >half of the time in that aspect of their work
Requires unplanned intervention on top of regular monitoring/support, but infrequently (not every day)
Work productivity moderately affected
- unable to do a significant part of their job

Level 2:
Able to manage <half of the time.
Requires frequent unplanned intervention on top of regular monitoring (every day or almost every day)
Work productivity severely affected
- Unable to do a substantial part of their job

Level 1:
Effectively unable or requires constant supervision with intervention (several times a day)

*another person may be someone already in the workplace (e.g. colleague / supervisor) or vocational support

Notes:
Level 7: No problem – can manage all of that aspect of their job independently
Level 6: Manages all of that aspect, but takes more than the reasonable amount of time or effort, or requires special equipment. Able to self-prompt and correct.
There is minimal reduction in work productivity

Level 4: Able to do most of that aspect of their work, but requires help from someone else to set-up equipment, or requires a structured environment, with supervision but only very occasional prompting / correction

Level 5: Able to do most of that aspect of their work, but requires help from someone else to set-up equipment, or requires a structured environment, with supervision but only very occasional prompting / correction
Work productivity mildly affected ( unable to do some parts of their job)

</table>
1. PHYSICAL & MOTOR

Physical and motor skills include: physical strength and motor tasks required to do their job, e.g. lifting, operating machinery, upper limb function, dexterity, coordination, ability to balance if required, etc.

Start

Does (N) need intervention from another person* to manage the physical and motor aspects of their job?

No

Does (N) require intervention from another person* to manage the physical and motor aspects of their job?

Yes

No Helper

Helper

Does (N) take more than a reasonable amount of time or effort, or do they need job modification, or more equipment/strategies to manage the physical and motor tasks required in their job than is usually required?

No

Does (N) take more than a reasonable amount of time or effort, or do they need job modification, or more equipment/strategies to manage the physical and motor tasks required in their job than is usually required?

No

INDEPENDENCE without modification

INDEPENDENCE with modification

SCORE 7

SCORE 6

SCORE 1

SCORE 2

SCORE 3

SCORE 4

SCORE 5

Work productivity affected

Level 7:
No problem – can manage all the physical and motor tasks associated with their job independently

Level 6:
Manages all of the physical and motor tasks, but takes more than the reasonable amount of time or effort, or requires minor job modification or special equipment or strategies. Able to self-prompt and correct. Work productivity is unaffected

Level 5:
Able to do most of the physical and motor aspects of their work but requires help from someone else to set-up equipment, or requires a structured environment, with supervision but only occasional help. There is minimal reduction in work productivity

Level 4:
Able to manage >75% of the time in that aspect of the job. Has regular planned intervention/help only. Work productivity only mildly affected

Level 3:
Able to manage >half of the time in the physical and motor tasks associated with their job. Either requires support more than 25% of the time, or requires infrequent unplanned intervention/help on top of planned monitoring/support, (not every day).
Work productivity moderately affected

Level 2:
Able to manage <half of the time. May require unplanned intervention on top of regular monitoring (every day or almost every day).
Work productivity severely affected

Level 1:
Effectively unable or requires constant supervision with intervention/help several times a day.

*another person may be someone already in the workplace (e.g. colleague/supervisor) or vocational support

Check score below

At level 7 the person:
Manages all physical and motor aspects of their work independently:
They perform independently without undue effort or modification of their job
Requiring no more equipment/strategies than would be considered usual.

Does (N) able to manage the physical and motor aspects of their job more than half the time without support from someone else?

Yes

No

Does (N) able to manage most of the physical and motor tasks, but requires someone else to:

Yes

Set-up equipment for them

Yes

Structure their environment

Yes

Supervise them, providing only occasional prompting

Yes

SUPERVISION OR SET-UP

SCORE 5

Does (N) able to manage >75% of the time, requiring planned monitoring and support only, with no need for unplanned intervention?

No

Yes

SCORE 4

SCORE 3

SCORE 2

SCORE 1

TOTAL DEPENDENCE

MAXIMUM SUPPORT

MINIMUM SUPPORT

Confidential – not for distribution
2. SENSORY & PERCEPTUAL

Sensory and perceptual abilities includes:
The sensory and perceptual ability to do the job.
Includes all sensory functions – eg vision, hearing, touch, and perception of differences between objects.
Also smell/taste, if these are required for the job.

At level 7 the person:
Manages all sensory and perceptual aspects of their work:
They perform independently without undue effort or modification of their job
Requiring no more equipment/strategies than would be considered usual.

Start

Does (N) require intervention from another person* To manage the sensory and perceptual aspects of their job?

TOTAL DEPENDENCE

No

SCORE 2

MAXIMUM SUPPORT

Is N able to manage > 75% of the time, requiring planned monitoring and support only, with no need for unplanned intervention?

Yes

SCORE 4

MINIMUM SUPPORT

No

SCORE 3

MODERATE SUPPORT

Is N able to manage > half of their working time in that aspect of the job. May require unplanned intervention on top of regular monitoring (every day or almost every day)

No

Work productivity only mildly affected

Yes

Work productivity moderately affected

Level 7:
- No problem – can manage all the sensory and perceptual tasks associated with their job independently

Level 6:
- Manages all of the sensory and perceptual tasks, but takes more than the reasonable amount of time or effort, or requires minor job modification or special equipment or strategies. Able to self-prompt and correct.
- Work productivity is unaffected

Level 5:
- Able to do most of the sensory and perceptual aspects of their work but requires help from someone else to set-up equipment, or requires a structured environment, with supervision but only very occasional help
- There is minimal reduction in work productivity

Level 4:
- Able to manage >75% of their working time in that aspect of the job. Has regular planned intervention/help only
- Work productivity only mildly affected

Level 3:
- Able to manage > half of their working time the sensory and perceptual tasks associated with their job
- Either requires support more than 25% or the time, or requires infrequent unplanned intervention/help on top of planned monitoring / support, (not every day)
- Work productivity moderately affected

Level 2:
- Able to manage < half of their working time in that aspect of the job.
- May require unplanned intervention on top of regular monitoring (every day or almost every day)
- Work productivity severely affected

Level 1:
- Effectively unable or requires constant supervision with intervention/help many times a day
- Work productivity severely affected

*another person may be someone already in the workplace (e.g. colleague / supervisor) or vocational support
3. MOBILITY & ACCESS

Access into and around the workplace:
Includes ability to move around in the work environment and access areas, facilities and equipment required for the job. Includes carrying necessary items, opening doors, working in confined spaces, accessing necessary facilities (e.g. toilets, meeting rooms).

NOTE: Item 4 deals with work-related mobility around outside the work premises.

At level 7 the person:
Is able to get around inside the workplace independently:
They perform independently without undue effort or modification of their job
Requiring no more equipment /strategies than would be considered usual.

Level 7:
No problem – can move around and access all the requisite areas of their work environment independently

Level 6:
Manages to access all requisite areas, but takes more than the reasonable amount of time or effort, or requires minor job modification or special equipment or strategies.

Level 5:
Able to move around and access most of the requisite areas, but requires help from someone else, or requires a structured environment, with supervision but only occasional help.

Level 4:
Able to manage >75% of the time. Has regular planned intervention/help only

Level 3:
Able to manage >half of the time and can access most of the requisite areas. Either requires support more than 25% of the time, OR requires infrequent unplanned intervention/help on top of planned monitoring / support, (not every day)

Level 2:
Able to manage <half of their working time. May require unplanned intervention on top of regular monitoring (every day or almost every day)

Level 1:
Effectively unable or requires constant supervision with intervention/help many times a day

*another person may be someone already in the workplace (e.g. colleague / supervisor) or vocational support
4. COMMUNITY MOBILITY (AS REQUIRED FOR WORK)

Moving around the community for work requirements
e.g. travelling to and from work, visiting clients, running errands.
(cooperative transport arrangements such as carpool and shared ride
are not counted as support)

NOTE: This item applies for all work-related mobility that is off the
work premises – item 3 relates to mobility on work premises.

Start

Does (N) require intervention from another person* to move around in the community as required for their job?

No

Does (N) take more than a reasonable amount of time or effort
Or
Do they need job modification,
Or
More equipment / strategies than is usually required to
manage moving around in the community for the job?

No

SCORE 7
INDEPENDENCE without modification

Yes

SCORE 6
INDEPENDENCE with modification

No Helper

Yes

Helper

Is (N) able to manage more than half the tasks associated with the moving around in the community more than half the time without support from someone else?
Or
If unplanned intervention is required, this is less often than ‘daily / almost every day’

No

SCORE 1
TOTAL DEPENDENCE

SCORE 2
MAXIMUM SUPPORT

Yes

Is (N) able to move around in the community as required for the job, but requires someone else to:
Make travel arrangements for them?
Or
Provide minimal supervision or prompting for (N) to make travel arrangements themselves?

Yes

SCORE 5
SUPERVISION OR SET-UP

No

SCORE 3
MODERATE SUPPORT

SCORE 4
MINIMUM SUPPORT

Is (N) able to manage more than half the tasks associated with the moving around in the community as required for work.

Yes

Can (N) move around in the community by themselves, needing planned support only at departure and/or destination point (e.g. help to get in an out of a vehicle, slow equipment), but not during the journey

No

Level 7:
No problem – can manage all the moving around in the community required for the job independently

Level 6:
Manages all of the moving around in the community, but takes more than the reasonable amount of time or effort, or requires minor job modification or special equipment or strategies.

Work productivity unaffected

Level 5:
Able to do most of the moving around in the community aspects of their work but requires help from someone else to make travel arrangements or requires minimal supervision or prompting to make arrangements themselves.

There is minimal reduction in work productivity

Level 4:
Able to move around in the community and make the journey independently, but requires planned support at departure and/or destination point (e.g. help to get in and out of a vehicle or stow equipment).

Work productivity only mildly affected

Level 3:
Able to manage more than half the tasks themselves but needs support during the journey.

Work productivity moderately affected

Level 2:
Able to undertake travel in the community, but needs constant support during the journey

Work productivity severely affected

Level 1:
Effectively unable - Relies on another person to move around in the community as required for work, and contributes little to the process.

*another person may be someone already in the workplace (e.g. colleague / supervisor), or someone else providing vocational support .

Taxi driver / bus driver, etc does not count as support.
5. STAMINA & PACING

Pacing and ability to work through a normal day.
Includes stamina to work effectively throughout working hours, and ability to manage fatigue effectively to avoid work disruption due to need for breaks or days off.

Start

No Helper

No

SCORE 7

Does (N) require intervention from another person* to manage fatigue and cope with the stamina requirements of the job?

No

SCORE 6

Does (N) take more than a reasonable amount of time or effort due to fatigue?

Yes

INDEPENDENCE without modification

Do they need job modification, special labour-saving equipment?

No

SCORE 5

INDEPENDENCE with modification

More than the usual strategies to manage fatigue?

Yes

SUPERVISION OR SET-UP

Is (N) able to cope with the stamina requirements of their job more than half the time without support from someone else?

Yes

SCORE 4

Or if unplanned intervention is required, this is less often than ‘daily / almost every day’

No

SCORE 3

Or are days off work due to fatigue only occasional?

Yes

SCORE 2

Does (N) need constant support, or takes very frequent days off (more than a few days a month).

No

SCORE 1

Or is (N) effectively unable to cope with the stamina requirements of their job?

Is (N) able to manage stamina requirements of the job independently most of the time, but requires someone else to:

Yes

Work productivity affected

Set-up equipment for them

No

SCORE 5

Structure their environment

Or

Supervise them, providing very occasional prompting only

Does (N) need constant support, or takes very frequent days off (more than a few days a month).

No

SCORE 2

Or is (N) effectively unable to cope with the stamina requirements of their job?

Is N able to manage their fatigue and cope with the stamina requirements of their job more than 75% of their working time, requiring planned breaks only and no need for unplanned breaks / rest periods?

Yes

Work productivity unaffected

Does (N) need constant support, or takes very frequent days off (more than a few days a month).

No

SCORE 1

Or is (N) effectively unable to cope with the stamina requirements of their job?

Is (N) able to cope with all the stamina requirements of their job without need for extra rests

No problem – can cope with all the stamina requirement of their job without need for extra rests

No

Level 7: Copes with stamina requirements of their job, but takes more than the reasonable amount of time or effort due to fatigability, or requires minor job modification or special labour-saving equipment.
Manages fatigue effectively.

Work productivity unaffected

Level 6: Able to cope with the stamina requirements of their job most of the time, but requires help from someone else to set-up equipment, or to structure their work pattern to manage fatigue

There is minimal reduction in work productivity

Level 5: Able to manage >half of the time to manage stamina requirements of the job.

Either requires support more than 25% of the time, or requires unplanned breaks on top of their planned rest periods/ reduced hours.

Or takes only occasional days off.

Work productivity moderately affected

Level 4: Able to manage >75% of the time

Has regular planned breaks / rest periods only

Work productivity only mildly affected

Level 3: Able to manage >half of the time to manage stamina requirements of the job.

Either requires support more than 25% of the time, or requires unplanned breaks on top of their planned rest periods/ reduced hours.

Or takes only occasional days off.

Work productivity moderately affected

Level 2: Able to manage <half of the time with respect to fatigue.

May require frequent unplanned breaks or rest.

Or takes frequent unplanned days off,

Work productivity severely affected

Level 1: Effectively unable to do their job due to fatigue, or requires constant support.

*another person may be someone already in the workplace (e.g. colleague / supervisor) or vocational support

Work productivity severely affected
6. COGNITIVE

Cognitive skills. Includes ability to manage memory, attention, concentration, etc. requirements of the job.

At level 7, the person:
Is able to manage all the cognitive tasks associated with the job independently.
They perform independently without undue effort or modification of their job.
Requiring no more equipment / strategies than would be considered usual.

**Score 7**
INDEPENDENCE without modification

**Score 6**
INDEPENDENCE with modification

**Score 5**
SUPERVISION OR SET-UP

**Score 4**
MINIMUM SUPPORT

Level 7:
No problem – can manage all the cognitive tasks associated with their job independently

Level 6:
Manages all of the cognitive tasks, but takes more than the reasonable amount of time or effort, or requires minor job modification or special equipment or strategies. Able to self-prompt and correct.

Work productivity unaffected

Level 5:
Able to do most of the cognitive aspects of their work but requires help from someone else to set-up equipment, or requires a structured environment, with supervision but only very occasional help.

There is minimal reduction in work productivity

Level 4:
Able to manage >75% of their working time in cognitive aspects of the job. Has regular planned intervention/help only.

Work productivity only mildly affected

Level 3:
Able to manage >half of their working time the cognitive tasks associated with their job.
Either requires support more than 25% or the time, or requires infrequent unplanned intervention/help on top of planned monitoring / support (not every day).

Work productivity moderately affected

Level 2:
Able to manage <half of their working time in cognitive aspects of the job.
May require unplanned intervention on top of regular monitoring (every day or almost every day).

Work productivity severely affected

Level 1:
Effectively unable or requires constant supervision with intervention/help many times a day.

*another person may be someone already in the workplace (e.g. colleague / supervisor) or vocational support
